Doctoriales UPPA 2016

Concept and Previsional program
10/10/2016 – 14/10/2016
Concept

- One week in an **immersive** and **very intensive** seminar dedicated to... **YOU**!
- If you ask yourself about...
  - What is a Ph.D? What are my own skills? How can I communicate about my professional experience? Which word should I use to describe my knowledge and know-how? Do I really have any competencies!?  
  - What is expected from a young Doctor on the « labour market » regardless of my project (do I want to work for a private company, an institution, a lab, a NGO?) ?  
  - What could I do after my Ph.D? Which ways are open to a professional profile like mine?
- If you need to have a break to put into question what you are doing, open your mind, develop or catch some ideas, or challenge yourself about your own projects...

**Doctorials? it’s a concept built around teamworking, meeting, communicating, simulating, challenging, networking, understanding and discovering.**
