

# PhD registration and re-registration

## PhD registration and re-registration procedures

- \* For the registration in the first year of new doctoral students, you can now refer to the “ [Doing your PhD](#)” tab in order to prepare your registration.
- \* For the re-registration, your Thesis Monitoring Committee can be carried out by videoconference. You can organize it now with your thesis supervisor, which will facilitate your re-registration from the beginning of July. You will find the 2020/2021 re-enrollment authorization form and the instructions for the Thesis Monitoring Committee on the intranet part of the doctoral school website.
