

OFFRE DE FORMATION ED211

ÉCOLE DOCTORALE SCIENCES EXACTES ET LEURS APPLICATIONS - ED 211

Avenue de l'université BP 1155 64 013 PAU Cedex – France

Intitulé de la formation : Public Speaking for Scientists

- **Période** : octobre, décembre
- **Nb d'heures** : 14h
- **Responsable de l'enseignement** : Ray Horn
- **Intervenant** : ALM Formation
- **langue dans laquelle l'enseignement sera donné** : Anglais

PRE-REQUIS :

The workshop is not really intended for native speakers of English.

La formation est destinée aux doctorants dont l'anglais n'est pas la langue maternelle, qui ont encore besoin de travailler la prononciation, l'accent tonique etc.

CONTENU DE L'ENSEIGNEMENT :

(Re)discover the tools for effective oral communication

This 2-day workshop is designed to help young scientific researchers develop their communication skills, with the primary focus on their presentations before small and large groups. Working from self-evaluation of their skills and objectives, participants will receive hands-on training in effective techniques in public speaking in academics, including physical preparation (stage presence, voice, non-verbal communication, branding), organization (structure, materials), content (convincing, storytelling, etc.), audience involvement, and the particular problems of presenting in a foreign language.

COMPÉTENCES VISÉES :

Objectives:

- Acquire a variety of oral communication skills
- Examine particularities of English that impact public speaking
- Develop an individual presentation style
- Master body language
- Create effective materials
- Optimize preparation
- Optimize interaction with listeners (Q&A)

ORGANISATION PEDAGOGIQUE :

APPROFONDISSEMENTS POSSIBLES :
